

**** New Product Announcement ****

In June 2013 we will have a new IH-9, 9-Part Head assembly available for the Model BMIH Dough Divider. This head will have a per piece dough scaling range from 4-ounces up to 17-ounces each.

This range will produce dough weights for many pizzas, baguettes and other mid-sized bread products. It will easily interchange with the 36 and 18-part heads without tools and can be washed in a sink or dishwasher for total cleaning.

Orders are now being taken for delivery on a first come first served basis.
